Attach additional pages if necessary.

I believe this whole project is a bad idea!

If given a go-ahead, the pipeline project would:

Fragment the boreal forest, home to birds and other wildlife, including Woodland Caribou and Grizzly Bears.

Expose the Great Bear Rainforest, home to wolves and the iconic Spirit Bear, and 30 internationally recognized Important Bird Areas teeming with marine birds, fish and other animals to potential oil spills and pollution from increased tanker traffic.

Risk irreversible harm to the livelihoods of many coastal and aboriginal communities.

Moving that much oil that far is bound to have devastating effect on the environment.
