**Subject:** RE: Up-date to Participants - Marathon Mine Project

Hi Debby,  
Thank you for your email of January 22 and your request for an extension to the February 10, 2014 deadline for submission of Health Canada's slides for presentation at the Marathon Mine Environmental Assessment Hearing .

Please note that the hearing procedures for the Topic Specific sessions (3.8.1.3) state that visual aids, such as PowerPoint presentations, are 'encouraged to be submitted' 10 days in advance of the start of the session in which they will be participating. While the Hearing Procedures provide the latest possible date for submission of visual aids, the Panel has indicated that it would like to receive all visual aids, such as PowerPoint presentations, by February 10. If you cannot submit your visual aids by February 10, you are strongly encouraged to provide them as soon as possible following this date.

If you have any questions, please call.

Jeff

Hi Cindy,  
It was great to touch base with you the other day and, as mentioned, I will update you further as I get more information. I am writing to request an extension to the February 10, 2014 deadline for submission of our presentation slides. Due to our current circumstances it is not possible for us to meet this deadline for the presentation, as we are hard pressed to even meet the February 7 deadline for our written submission which I feel is the priority. Thank you for your help in this regard.

Sincerely,  
Debby
