Subject: Re: Pacific Northwest LNG on Lelu Island

My Letter

I do not want to have this "project" continue on our very pristine coast line. The Malaysian government that is behind this is corrupt and I DO NOT WANT to have MY country to be a part of this. The First Nations have already said no so that should be respected, along with the rest of the citizens of British Columbia who want to protect our natural resources and the natural beauty of our coast line.

We have a new government now. One that has the voice of the people of Canada listening. Catherine McKenna PLEASE do not allow this to happen. Canada needs to be the leader in the new world of resources and to not let foreign governments dictate to us what to do. We need to deliver better, more sustainable alternatives and to invest in human resources to deliver. If Canada is going to go "green" then no better time than now to make it happen. Please, and I say this with sincerity, please let Prime Minister Justin Trudeau know how most citizens of British Columbia do not want this.

We need to set a precedent. Justine please say no! Thank you. Shirley Helgason

Sincerely,

shirley helgason
