Dear Canadian Environmental Assessment Agency,

I am writing to you to express my support for approval of the Pacific NorthWest LNG project's environmental certificate.

PNW LNG's sister company, Progress Energy, has shown that it is committed to environmentally sound and sustainable development of British Columbia's and Alberta's oil and gas reserves. PNW LNG has also demonstrated its willingness to incorporate feedback from the local community and First Nations into the design of the facility, and I am confident they can develop this project in an environmentally responsible manner.

Progress Energy and Pacific NorthWest LNG are already creating economic benefits in British Columbia, Alberta and Canada. This project will create thousands of additional jobs, directly and indirectly, that will be required to support the facility during its ongoing operation.

Sincerely,

Michelle Jarvin
