Pacific NorthWest LNG Project
Canadian Environmental Assessment Agency
410-701 West Georgia Street
Vancouver, British Columbia V7Y 1C6

Via email: GNLPacificNorthwestLNG@ceaa-acee.gc.ca

Dear Canadian Environmental Assessment Agency,

Please consider this letter a strong showing of support for Pacific NorthWest LNG.

As a contractor to Progress Energy Canada Ltd, Pacific NorthWest LNG's sister company, I've seen the way both companies have done business and I'm happy to be a part of the project. Through my dealings over the past 8 years, I've witnessed PECL's management stand to its promises when it comes to regulatory, environmental and First Nation relations.

The environmental assessment showed only minimal impact to environment and I have no doubt that PNW LNG will implement any additional measures required to ensure the safety to people and environment going forward. This is a long-term, forward-thinking company whose risk-averse mentality dictates it does business with the highest regard to safety & environment.

The province and country need projects like this to continue growth and self-sustainability through the coming decades. Between the sister companies, approximately 3100 full-time, ongoing jobs will be created/sustained. Thousands more jobs will be created for to construct the facility and pipeline. Thousands more workers will benefit from "indirect" jobs.

With the ever-prevalent population of baby boomers coming into retirement age, our medical system is being taxed harder and harder. The revenues from the sale of natural gas/LNG coupled with the extra tax dollars from well-paid workers will go a long way to mitigate this upcoming crisis.

Mr. Trudeau and his government have walked into a very tough global financial situation considering the state of the Canadian dollar and hydrocarbon pricing. Approval of this facility will go a long way to appease the right-wing contingent as well as show support for the Liberal provincial government.

I am asking the Government of Canada to approve Pacific NorthWest LNG's environmental certificate.

Sincerely,
<original signed by>

(Sandy) Terry McCooeye
Lead Operator, Progress Energy
