

To the Impact Assessment Authority:

I am opposed to Roberts Bank Terminal 2. It is an unacceptable development which would have profound negative impacts on an environment already stretched to the limits of tolerance. It threatens millions of shorebirds dependant on the estuary, and threatens the remaining salmon populations and orcas which feed on salmon. The planet is already labouring under a biodiversity crisis. It would be immoral and unethical to permit this development to proceed. Cancel this proposal now.

Yours sincerely,

Charles Vaughan,
