Dear Commissioners

Regarding Endorsement of CN as an outstanding Corporate Citizen.

My name is Gerry Kentner and I am the Chair of Light up the Hills, a not for profit volunteer driven organization in its tenth year of providing Festive Lighting Displays in December during the Holiday season in three of our Halton Hills Parks.

We approached CN in August of 2016 asking for their financial support of our project. CN was very receptive to partnering with yet another community organization who values the strength and importance of giving back to our community in an environmentally conscientious manner with our LED lighting displays and our community spirited program.

CN made a large financial contribution to assist with our ongoing expenses and also provided the funds to create an illuminated CN locomotive display for our feature park in Georgetown.

As one of the top 10 community events in Halton Hills, we are so proud of this fantastic family orientated FREE community event, beginning with Ignition night on December 1st each year.

CN also has provided support with a fabulous draw prize for one of our major fundraising projects and were on site at our Dec. 1st opening with their CN train Obie for the enjoyment of our kids and to be recognized with our top 5 sponsors, Dufferin Aggregates, Town of Halton Hills, Halton Hills Hydro and Tim Hortons.

Without the community business and corporate support, events like Light up the Hills would not happen.. CN support through Light up the Hills benefits our whole community and thousands who drive through it on Highway 7 and for a brief moment feel the magic of the season.

CN is very much visible and noticed in our community since the mid 1800's when their predecessor Grand Trunk Railway arrived. With their many donations and support of local events, such as our Hospital and our Chamber of Commerce, CN help to make Halton Hills a fabulous place to live, work, raise our children and retire.

Light up the Hills is proud to endorse CN as an outstanding Corporate Citizen.

I appreciate you giving our community group a voice to express our support of CN

Regards

Gerry Kentner

Light Up The Hills
