DEAR SIAS:

AFTER LIVING IN PEACE RIVER AND THE PEACE RIVER COUNTRY FOR AT LEAST 50 YEARS AND HAVING LIVED BESIDE THE NAMED RIVER, I AM CONCERNED ABOUT THE EFFECTS OF HAVING A THIRD DAM BUILT ON IT. AS IT IS, THE WATER FLOW HAS BEEN GREATLY REDUCED WITH JUST ONE DAM AND NOW THE B.C. GOVERNMENT IS DETERMINED TO BUILD A SECOND ONE AT SITE C NEAR TAYLOR FLATS, B.C.

ALL ALONG THIS RIVER IS VERY FERTILE SOIL WHICH PRODUCES LOCAL VEGETABLES, FRUITS, ETC. AND ONCE THIS LAND IS FLOODED IT CANNOT BE RECLAIMED.

FURTHER, THE RIVER THEN FLOWS NORTH JOINING THE ATHABASCA AND NOURISHES THE DELTA AREA OF GREAT SLAVE LAKE. HAS CONSIDERATION BEEN GIVEN TO THE EFFECT THREE DAMS WILL HAVE ON THE RIVER FLOW, AND THE DELTA AND CONSEQUENTLY THE NATIVES IN THE AREA,

ALSO THERE WAS A CHANGE IN THE WEATHER PATTERNS AFTER THE B.C. BENNETT DAM WAS BUILT. HOW WILL THREE DAMS WITH RESERVOIRS AFFECT THE WEATHER?

WATER IS ONE OF OUR RESOURCES, LET'S NOT ABUSE SOMETHING THAT CANNOT BE REPLACED.

Yours truly
