

Federal Authority Advice Record

Response due by: July 21, 2016

Pacific Future Energy Refinery Project – Pacific Future Energy Corporation
 Agency File No.: 005565

Department/Agency:	Parks Canada		
EA Contact Name:	Steve Oates	Telephone:	604 666-0286
Address:	300-300 W Georgia Street, Vancouver BC V6B 6B4	Fax:	
Email:	Steve.oates@pc.gc.ca		

1. (a) Indicate whether the description of potential environmental effects presented in the Project Description is sufficient in characterizing project effects to the components of the environment, as defined under section 5 of CEAA 2012, that relate to your mandate, including whether these effects may be adverse.
 Yes it is sufficient

(b) Identify any additional potential adverse environmental effects of the Project that are not described in the Project Description and their linkage to components of the environment under federal jurisdiction (as defined under section 5 of CEAA 2012).
 None

c) List any species at risk as defined by the *Species at Risk Act* (SARA) or species of conservation concern that have been assessed by COSEWIC that may be affected by the Project and are not identified in the Project Description. This information will inform the Agency's Section 79(1) notification obligations under SARA.
 None

2. (a) List the potential powers, duties, or functions that your department may issue to enable the Project to proceed, why they might be issued, and which project components and activities are related to the powers, duties, or functions.
 None

(b) Identify the potential environmental effects, associated with that power, duty or function identified above, as described in subsection 5(2) of CEAA 2012. Please include in your response a description of the scope or extent (i.e., project activities addressed and components of the environment included) under this power, duty or function.
 N/A

Act and associated power, duty or function	Project components or activities associated with the power, duty or function	Changes to the environment resulting from the project components or activities
Ex. Fisheries Act Subsection 35(2) Serious Harm	Example Diversion of river Compensation lake (offsetting)	Example River re-routed through old-growth forest Compensation lake removes peatland and old-growth forest Potential species habitat lost as a result of compensation lake (turtle, marten, otter)

(c) Has your department or agency already exercised the above-noted power or performed a duty or function to enable the proposed Project to proceed in whole or in part? If yes, please describe. Yes No

3. (a) Under the former Act, did your department or agency determine that an EA of this Project was likely?
 Yes No

If yes, provide additional details regarding the timing, reason for determination, and the proponent notification of the decision.

If no, provide additional details regarding the timing, reason for determination, and the proponent notification of the decision.

(b) Has your department or agency taken an EA course of action decision under paragraph 20(1)(a) or (b) or subsection 37(1) of the former Act in relation to the Project? Yes No

If yes, please describe. This information is requested in order to determine application of section 128(1) of CEAA 2012.

4. Identify and describe the specialist or expert information or knowledge within your department that would be relevant to the conduct of the environmental assessment of the Project, should an environmental assessment be required. -Provide the contact information for individual that will provide the specialist or expert advice.

None
