**Subject: NRCan Technical Review – Proponent responses to Round 2 IRs– Lynn Lake Gold Project**

On June 9, 2022 Natural Resources Canada (NRCan) received a request from the Impact Assessment Agency of Canada (the Agency) to provide a technical review of the Proponent's responses to the second round of Information Requests (IRs) for the Lynn Lake Gold Project. NRCan has met this request by reviewing the information in the responses that is relevant to NRCan's areas of expertise. For this project, NRCan is providing expertise in hydrogeology, acid rock drainage and metal leaching as well as in our role as administrators of the *Explosives Act*. NRCan's comments for this review can be found in attachment 1.

If you have any questions please do not hesitate to contact me via email at  
<email address removed> or by phone at <contact information removed>

Sincerely,

Maximilien Genest

Environmental Assessment Officer – Office of the Chief Scientist  
Natural Resources Canada / Government of Canada
