Dear Ms. Siddiqui,

On behalf of the Association of Manitoba Municipalities (AMM), I am writing to bring your attention to an issue raised by the Town of Lynn Lake regarding the current application of Alamos Gold Inc. to commence mining operations in the municipality.

The AMM understands that Alamos Gold Inc. acquired the Lynn Lake gold project in 2016 and submitted an Environmental Impact Study in May 2020. As this project has significant economic development and growth implications for the Town of Lynn Lake, I kindly request that you expedite the review of the project application as soon as possible. There is tremendous economic potential in northern Manitoba, and projects such as this one will help kickstart economic and population growth in the region.

Thank you for your attention to this important matter.

Yours sincerely,
