Dear Ms. Boychuk,

This letter is a response to your correspondence dated Jan. 23, 2020, requesting our review and comments on the Environmental Impact Statement (EIS) Summary for the Central Ridge Exploration Drilling Project.

As you stated in your letter, the Central Ridge Exploration Drilling Project is in the same project area as the Flemish Pass Exploration Drilling Project, and the Eastern Newfoundland Exploration Drilling Project, on which we already provided comments on March 14, 2019. Please consider our comments made in our previous letter to apply to the EIS for the Central Ridge Exploration Drilling Project.

Thank you for your time.
