RE: CanWhite Sands Corp Close Stakeholder Open House Nov 29, 2021

CanWhite would like to provide a quick update on a recent open house held at the Anola Community Center, Manitoba, November 29, 2021.

CanWhite Sands hand delivered 135+ personal invitations to all property holders within a 5km radius of the proposed facility. Of the 135 delivered 19 people chose to attend and of the 19 two were residents outside the 5km radius. Of the 19 attendees only a couple were initially opposed and asked questions which were primarily based on falsehood from social media. The remainder were pleased with the information and direct dialog format and were quite supportive.

Attendees at the open house from CanWhite Sands Corp included:

Feisal Somji B. Sc., MBA – CEO/President
Brent Bullen B. Comm, MBA– COO
Laura Weeden P. Eng. – VP Operations
Troy Needham – P. Geo.- CanWhite Chief Geologist
Kevin Zaharia – General Manager
Shandy Walls – Community Liaison and local resident
Cliff Samoiloff B.Sc. EP(CEA) - Senior Scientist & Project Manager, Mining and Industrial Market Sector Leader, Canada AECOM
Ryan Mills M.Sc., P.Geo. (BC, AB) - Senior Hydrogeologist, Environment AECOM
Dione McGuinness BA Communications – Principal InigenUs Consulting Corp Stakeholder and Indigenous Engagement

As is demonstrated CanWhite came prepared to answer any and all questions from local community members. The open house was a drop in style event from 6:00pm until shortly after 8:00pm. All

participants were encouraged to ask questions directly to any representative, officer, or technical expert in an open, low pressure environment.

CanWhite did not experience any hostile or negative conduct from any attendee which is contrary to the social media reporting of project sentiment.

Best Regards,
