**ATTACHMENT: Federal Authority Advice Record**

**Response due by December 9, 2020**

**Value Chain Solutions - Heartland Complex Expansion Project**

**Agency File: 81148**

Department/Agency	Canadian Transportation Agency
Lead IA Contact	John Woodward
Full Address	15 Eddy St, Gatineau, QC J8X 4B3
Email	John.Woodward@otc-cta.gc.ca
Telephone	(819) 953-9918
Alternate Departmental Contact	Stephen Karasmanis Stephen.Karasmanis@otc-cta.gc.ca (819) 665-0568

- 
1. Is it probable that your department or agency may be required to exercise a power or perform a duty or function related to the Project to enable it to proceed?

If yes, specify the Act of Parliament and that power, duty or function.

It is unclear from the project description whether the railway loops are privately owned by the Proponent, Value Chain Solutions (VCS) or owned by CP. After reaching out to VCS, it was confirmed through email, "that the planned loop will be owned by VCS and parent company Value Creation Inc., unless contracted out to a 3rd party later." Since the railway loop will be privately owned by the proponent, VCS, and therefore are not part of a federally regulated railway network, the project does not require approval under section 98 of the Canada Transportation Act.

- 
2. Is your department or agency in possession of specialist or expert information or knowledge that may be relevant to the conduct of an impact assessment of the Project?

Specify as appropriate.

John Woodward; Senior Environmental Officer; Contact information provided above.

- 
3. Has your department or agency considered the Project; exercised a power or performed a duty or function under any Act of Parliament in relation to the Project; or taken any course of action that would allow the Project to proceed in whole or in part?

Specify as appropriate.

The Canadian Transportation Agency has not, to date, exercised a power, performed a duty or function under any Act of Parliament or taken any action in relation to the Project.

---

4. Has your department or agency had previous contact or involvement with the proponent or other party in relation to the Project? (for example, enquiry about methodology, guidance, or data; introduction to the project)

Provide an overview of the information or advice exchanged.

No previous contact or involvement.

---

5. Does your department or agency have additional information or knowledge not specified, above?

Specify as appropriate.

No additional information or knowledge.

---

6. From the perspective of the mandate and area(s) of expertise of your department or agency, what are the issues that should be addressed in the impact assessment of the Project, should the Agency determine that an impact assessment is required?

For each issue discussed, provide a concise, plain-language summary that is appropriate for inclusion in the Summary of Issues.

The proposed project description, which includes potential environmental effects from the construction and operation of railway loops from The Heartland Complex to CP's mainline, characterizes environmental effects, however it is expected to be outside of the Canadian Transportation Agencies mandate.

---

Stephen Karasmanis

Name of Departmental / Agency Responder

Junior Infrastructure Engineer
