Impact Assessment Agency of Canada  
Prairie and Northern Region  
Suite 1145, 9700 Jasper Avenue  
Edmonton, AB T5J 4C3

**Attention: Roslyn King, Senior Consultation Analyst, Prairie and Northern  
Region**

Dear Ms. King:

**Re: Notice of Comment Period on the Draft Tailored Impact Statement  
Guidelines (TISG) for the Value Chain Solutions – Heartland Expansion  
Project and Request for Input by May 17, 2021**

We write on behalf of Lac Ste Anne Métis in response to your letter of April 19, 2021 to provide input on the Value Chain Solutions - Heartland Expansion Project (the Project). We attach the following to be incorporated into the final TISG:

1. Draft TISG with track changes and comments, including from air quality expert Danlin Su, M.Eng., P.Eng.
2. Comments for incorporation of Megan Thompson, Ph.D., P. Biol., R.P. Bio.

Due to time constraints, we did not have an opportunity to complete the worksheet for value components. However, we believe the Agency has adequate submissions from LSAM to provide us a draft list of VCs for our review and input.

We also briefly reviewed the April 27, 2021 draft VCS Heartland Complex and Expansion Project Indigenous Engagement and Partnership Plan. We have not made any additional comments from our prior comments. However, we reserve all rights to raise concerns with the consultation process undertaken for the Project and ultimately any final consultation adequacy decision if necessary. Further, we look forward to working with the Agency to conclude a community specific consultation agreement. We look forward to meeting with the Agency to conclude such agreements based on the outline set out in our submissions on the initial project description on December 9, 2020.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Murleen Crossen', enclosed in a thin black rectangular border.

Murleen Crossen, President

Encls.
