Subject: Health Canada's Response to the Designation Request pursuant to the Impact Assessment Act for the Great Sandhills Railway Switching Operation at North West Terminal Project

Dear Shelly Boss,

Thank you for your letter dated November 12, 2020 regarding the Agency's consideration of a Designation Request for a revised design of the proposed railway yard expansion of the existing North West Terminal.

As requested, Health Canada confirms that its October 7, 2020 response on the initial project description for the Great Sandhills Railway Switching Operation at North West Terminal Project is still applicable to the revised designed project, and could be considered as part of the designation request process for this Project.

Should you have any questions concerning Health Canada's response, please contact Paul Partridge (paul.partridge@canada.ca).

Sincerely,

Matthew Gale
