Dear Minister Wilkinson,

As a senior citizen with family roots in the area of the Holland Marsh, I am appalled that Doug Ford wants to put an expressway through that important area. Surely during the pandemic we have learned the importance of being able to feed our own people, along with many other things we could not provide in our own country?

Besides being important agricultural land, this is an area of importance to the environment and as a home to many threatened species.

Please proceed with an environmental assessment.

And I hope it will stop this madness.
