Subject: Stop the Holland Marsh Expressway

Attachments:

Attn: Minister of the Environment, The Honourable Jonathan Wilkinson

Dear Mr. Wilkinson

I have recently learned and am greatly concerned about the Ontario government's plan to develop a highway through the Holland Marsh, causing massive problems for so much wildlife, for the agriculture in that area.

I have heard there are studies that show that more roads don't even save us much time. They simply fill up and there continues to be traffic problems.

These decisions affect our immediate future and that of the future generations.

Please, for the good of all, ensure there is a federal environmental assessment completed before this is pushed through. Then, I would expect it would not be allowed, as there are too many reasons against it.

I look forward to your action on this matter.

Sincerely
Steve Orr
