Subject: Regional Assessment - Ottawa Valley

I support the City of Ottawa's call for a regional assessment of Ottawa Valley radioactive disposal projects under the Impact Assessment Act.

A regional assessment could provide a "big picture review" of radioactive waste and the cumulative effects of existing waste sites and proposed new facilities. The assessment could consider protection of drinking water, maintenance of property values, tourism and employment in the Ottawa Valley while considering the rights, knowledge and priorities of Indigenous communities.

Thank you, in advance, for your prompt attention to this matter.

Phyllis Kessler
