In-document quotation	Comment
The governments of Canada and Newfoundland and Labrador communicate the results of these studies with the public to increase public knowledge of the role of offshore wind in the province's energy mix and economy. Agreement Requirements	"Agreement Requirements" does not make sense with this bullet. Is this another bullet? Or the start of a new sub-section?
Figure 4.2 Offshore Wind Turbine Components	Units in the figure are imperial (feet)
Figure 4.3 Trends in the Development of Offshore Wind Turbines	The figure description does not align with the figure itself. Possible typo when referring to the 3MW turbine; should the text be changed from "2020" to "2010"? As well, are the heights referenced in the caption referring to the hub height or total height including the blade lengths? Each value in the caption seems to be referring to a different metric.
GHG (in section title)	Use of acronym (GHG) in section title. Inconsistent use of acronym (sometimes GHG, sometimes greenhouse gases).
footnote text "ECCC advised the do not anticipate..."	Typo
Use of terms "nidifugous" and "nidicolous"	General readership is unlikely to know the meaning or significance of these terms.
[second paragraph] "The fall migration model showed movement distribution along the southwestern boundary of the Focus Area, at St. Piere Bank..."	Typo
"...Northern gannets" (second last line of paragraph 2)	Typo
Herring Gulls	Typo. Remove "s" at the end of Gull
"...tacking data"	Typo
"...Leach's Storm petrel..." (first line)	Typo
Models were built based on tacking data...	Typo
"Th largest known colony size for each site and species between 1974 to 2024 was considered."	Typo
"... surrounding the Burin Peninsula"	Typo
"... declines in habitat extant and quality..."	Typo

ECCC provided the Committee confidential maps showing areas important for Piping Plover, based on their critical habitat, ACCDC database, and nternal data on nesting records between 2017-2022	Typo
"They estimate mortalities were greatest amongst Northern Gannet (25, 699 individuals)"	Spacing typo within number
"Movement pathways of migratory birds that intersect wind farms during their seasonal migrations are also at risk (Degraer ert al. 2021)."	Typo
"Habitats may be enhanced for aerofauna through the artificial reef effect, due to increase prey availability, and/or perching opportunities."	Typo
"For example, nest destruction related to vessel wake has been document in freshwater system"	Typo
"ECCC (August 2024) indicated the following species maybe highly sensitive or vulnerable to disturbance by vessels Dehnhard et al., 2019; Goodship & Furness, 2022; Jarrett et al., 2018; Larsen & Laubek, 2005; Mendel et al., 2019)"	Typo (opening parenthesis missing)
Jarrett et al., 2018	Not listed in references
"(Dierschke et al., 2016; Drewitt & Langston, 2006; Fox et al., 2006; Williams et al., 2024)"	Unnecessary space after opening parenthesis
...avoidance of effected areas...	Typo
"... wind farms located further than 26 km..."	Typo
"(august 2024)"	Typo
...could become productive foraging habitat for marine birds overtime..."	Typo
" Robust turbine blade component materials to reduce breakdown and abrasion into sea. "	Inconsistent bulleting.
oise and vibration disturbances.	3rd bullet on this page is a partial repeat of text in previous bullet.
ECSAS survey use ships of opportunity surveys to collect data...	Clarify
"Marine Bird Density and Distribution"	under the paragraph labelled "Marine Bird Density and Distribution" several misplaced periods create sentence fragments.
"1000"	Typo

"Owever" starts the second sentence	Typo
"Both The" is the start of the last sentence in the first paragraph	Typo
Table 7.6.1: Federal Legislation and Associated Special Areas	Expand acronyms for clarity
"... 1) the GSL and 2) the NLS."	Expand acronyms for clarity
Various use of capital letters in bird names	Revise for consistency.
"Leach's Sotrm Petrel"	Typo
Southeast Avalon Conservation Planning Initiative	Incorrect name
"miles/hour"	Entire document outside of 2 figures are in metric units.
"miles/hour"	Imperial units
Issues with spacing between "X.X.X.Title"	Revise for consistency
Throughout	Revise for consistency
Throughout	Ensure consistency in reference formatting. Some references are "et al., XXXX" while others are "et al. XXXX"
Throughout	Consistency of in-text citations and use of "&" versus "and". For example "Bach and Rahmel, 2004" and "Larsen & Laubek, 2005"

Recommendation

Confirm where "Agreement Requirements" should be placed.

For consistency with document, change units to metric. Figure could then be cited as "modified from NYSERDA, 2024"

Recommend clarifying the figure description and ensuring that heights in the figure align with the description.

Acronyms should be written out in section titles and used consistently.

"the" should be "they"

Suggest rewording.

St. Pierre Bank

Northern **G**annets

Herring Gull

tracking data

Leach's Storm-petrel

should be "tracking"

"**The** largest known colony size for each site and species between 1974 to 2024 was considered."

Burin Peninsula

declines in habitat **extent** and quality

... ACCDC database, and **internal** data...

They estimate mortalities were greatest amongst Northern Gannet (**25,699** individuals),

Movement pathways of migratory birds that intersect wind farms during their seasonal migrations are also at risk (Degraer **et al.**, 2021).

Habitats may be enhanced for aerofauna through the artificial reef effect, due to **increased** prey availability, and/or perching opportunities.

"has been documented in freshwater systems"

"ECCC (August 2024) indicated the following species maybe highly sensitive or vulnerable to disturbance by vessels (Dehnhard **et al.**, 2019; Goodship & Furness, 2022; Jarrett **et al.**, 2018; Larsen & Laubek, 2005; Mendel **et al.**, 2019)"

Add to references

(**Dierschke** **et al.**, 2016; Drewitt & Langston, 2006; Fox **et al.**, 2006; Williams **et al.**, 2024)

should be "affected areas"

"... wind farms located **farther** than 26 km..."

(**August** 2024)

should be "over time"

Recommend adding a verb to match the previous bullets.

"**Use** robust turbine blade component materials to reduce breakdown and abrasion into sea."

remove "oise and vibration disturbances."

Recommend rephrasing to "ECSAS data are collected from ships of opportunity ..."

Revise

Need to add "m" at the end of diving depth for tuna in this table

Change "Owever" to "However"

Remove the word "Both"

Recommend including the full names as well as acronyms for all special areas

E.g., Marine Protected Areas (MPAs), etc.

Recommend defining acronyms here

Keep all bird naming conventions consistent throughout this table.

Leach's Storm-petrel

Southern and Eastern Avalon Marine Conservation Planning Initiative

Recommend using metric throughout.

Recommend using metric throughout.

Ensure spacing is correct in all section and subsection titles and tables and figures throughout the document. Sections 7.11 and 7.12 in particular.

Ensure consistency in species names and capitalization (i.e., Northern **G**annett)

Check for consistency

Check for consistency
