		exploration program to understand geological potential.	low potential for built heritage resources and cultural heritage landscapes. Therefore, no technical cultural heritage studies have been undertaken.
		There has been no prior production from the Property and there are no historic buildings or facilities on the	[Please include the completed screening checklist with documentation to support your conclusion for this project]
		Project site.	[if is determined that the study area has potential for BHR/CHL] A Cultural Heritage Report: Existing Conditions and Preliminary Impact Assessment [date & consultant] was undertaken to assess the area for known (previously recognized) or potential built heritage resources and cultural heritage landscapes (BHR/CHLs). Based on the report, it was determined that there is # known and potential BHR/CHL within the study area. Cultural Heritage Evaluation Reports/Heritage Impact Assessments (CHER/HIA) were recommended for the # properties that could be directly impacted. All CHER/HIAs were undertaken on [date] by [heritage consultant]. The Cultural Heritage Assessment Report is included in Appendix X.

4.	D.3.2 (Provincial) Table D.2	n/a	Table D.2 (Provincial Environmental Approvals anticipated to be required) does not address impacts to cultural heritage resources. We recommend including the following additional rows to align with current provincial legislation and terminology.
	p. 49		Approval MCM Review Letter Agency
			 Ministry of Citizenship and Multiculturalism Description/ Facility Archaeological assessment(s) are required for areas of archaeological potential. Archaeological concerns have not been addressed until reports have been entered into the Ontario Public Register of Archaeological Reports where those reports recommend that: the archaeological assessment of the project area is complete and all archaeological sites identified by the assessment are either of no further cultural heritage value or interest (as per Section 48(3) of the Ontario Heritage Act) or that mitigation of impacts has been accomplished through an avoidance and protection strategy.

Item	Document Section	Given Text	MCM Comments
			Approval MCM Review Letter Agency Ministry of Citizenship and Multiculturalism Description/ Facility If there is potential for built heritage resources and/or cultural heritage landscapes (BHR/CHL) within the project area, Cultural Heritage Evaluation Reports (CHER) will be undertaken by a qualified person to determine the cultural heritage value or interest of potential BHR/CHL. If a property is determined to be of cultural heritage value or interest and alterations or development is proposed, a Heritage Impact Assessment (HIA), prepared by a qualified consultant, will be completed to assess potential project impacts. The HIA will be sent to MCM for review and comment and made it available to local organizations or individuals who have expressed interest in review.
5.	E. (Potential Effects of the Project) Table E.2 p. 56	Proposed Mitigation (Preliminary) - Archaeological studies have been conducted and no cultural heritage features or artefacts have been identified in locations of proposed development to date (further investigation planned) - This will continue to be reviewed as additional information is gained and the Project's design progresses; mitigation will be completed, if needed - Kinross' chance find procedure and other	The table row addressing "Physical and cultural heritage" should be revised (See underlined and crossed out text) to include the following mitigations which reflect the Ministry of Citizenship and multiculturalism's current roles and responsibilities. Proposed Mitigation (Preliminary) — Archaeological studies have been conducted and no cultural heritage features or artefacts have been identified in locations of proposed development to date (further investigation planned) — This will continue to be reviewed as additional information is gained and the Project's design progresses; mitigation will be completed, if needed — Kinross' chance find procedure and other measures will be put in place as needed, to identify and protect undetected features or artefacts during construction - Compliance with the recommendations of the Stage 1 Archaeological Assessment. - Should previously undocumented archaeological resources be discovered, they may be a new archaeological site and therefore subject to Section 48(1) of the Ontario Heritage Act. The proponent or person discovering the archaeological resources must cease alteration of the site immediately and engage a licensed consultant archaeologist to carry out an archaeological assessment, in compliance with Section 48(1) of the Ontario Heritage Act.

Item Docum Section	nt Given Text	MCM Comments
	measures will be put in place as needed, to identify and protect undetected features or artefacts during construction	 The Funeral, Burial and Cremation Services Act, 2002, S.O. 2002, c.33 requires that any person discovering human remains must cease all activities immediately and notify the police or coroner. If the coroner does not suspect foul play in the disposition of the remains, in accordance with Ontario Regulation 30/11 the coroner shall notify the Registrar, Ontario Ministry of Public and Business Service Delivery, which administers provisions of that Act related to burial sites. In situations where human remains are associated with archaeological resources, the Ministry of Citizenship and Multiculturalism should also be notified (at archaeology@ontario.ca) to ensure that the archaeological site is not subject to unlicensed alterations which would be a contravention of the Ontario Heritage Act. [Insert the recommendations of any technical cultural heritage studies (e.g., Cultural Heritage Reports and Heritage Impact Assessments) undertaken in support of this project].
