

Federal Authority Advice Record (FAAR)

The FAAR must be submitted to the Registry by April 10, 2024.

Summit Lake PG LNG Project – JX LNG Canada Ltd.

Agency File : 005908

Department/Agency	Canadian Transportation Agency (CTA)
Lead contact	Sarah Bunting - Environmental Officer, Determinations and Compliance Branch
Full address	Canadian Transportation Agency 60 Laval Street, Unit 01 Gatineau, QC J8X 3G9
Email	sarah.bunting@otc-cta.gc.ca
Telephone	819-271-7290
Alternate Contact	John Woodward - Senior Environmental Officer, Determinations and Compliance Branch Email: john.woodward@otc-cta.gc.ca Phone: 819-962-0472

-
1. a) Is it probable that your department or agency may be required to exercise a power or perform a duty or function related to the Project to enable it to proceed?

No – Assuming that there is no new Federally Regulated Railway Company (FRRC), the Project does not require approval under section 98 of the *Canada Transportation Act* in order for the proponent to construct the proposed LNG Facility for the following reasons:

- **The proponent is not a FRRC, nor is the proponent facilitating the implementation of the proposed Project as a third party on behalf of a FRRC;**
- **The proposed Project is located on public lands (i.e., provincial crown land), that are not Federal Crown lands, or lands owned by a FRRC; and**
- **The works and/or lands of the proposed Project are not to be under the oversight of, operated by, or serviced by a FRRC.**

If yes, specify the Act of Parliament and that power, duty or function.

b) Please describe any Indigenous or public consultation that will be undertaken in relation to the exercise of that power, duty or function, including when it would take place.

N/A

-
2. Is your department or agency in possession of specialist or expert information or knowledge in one of your fields of expertise that may be relevant to the conduct of an impact assessment of the Project?

Specify the specialist or expert information or knowledge.

Yes – The CTA can provide insight regarding railway operations and services.

3. Has your department or agency exercised a power or performed a duty or function under any Act of Parliament in relation to the Project; or taken any course of action that would allow the Project to proceed in whole or in part?

Please specify if applicable.

No – The CTA has not had any previous involvement in the Project which would have allowed the Project to proceed in whole, or in part.

4. Has your department or agency had previous contact or involvement with the proponent or other party in relation to the Project (for example: an enquiry about methodology, guidance, or data; introduction to the Project)?

Please provide an overview of the information or advice exchanged.

No – The CTA has not had any previous contact or involvement with the proponent or other party in relation to the Project.

5. Does your department or agency have additional information or knowledge about the project not specified above, including information about its geographic, environmental, economic or social context (for example, location of protected or sensitive areas, history between local communities and proponent or similar projects, local or regional social or economic concerns)?

Please specify if applicable.

No – The CTA does not have any additional information or knowledge about the Project not already specified above.

6. From the standpoint of your department's mandate and expertise, what are the main issues concerning the project?

For each key issue, please:

- describe the effect or the nature of the issue, including any relevant context;
- provide the rationale and/or evidence for why it is a key issue;
- briefly provide solutions to the issue, including information or studies that, if applicable, should be requested to the proponent in the Tailored Impact Statement Guidelines, potential mitigation measures, or regulatory requirements relevant to the issues;
- provide a concise, plain-language summary of the issue for inclusion in the Summary of Issues.

The information provided will be taken into consideration by the Agency to formulate an opinion on whether an impact assessment is required and, if applicable, will be taken into account in developing project-specific Tailored Impact Statement Guidelines in the next steps of the impact assessment process.

Please use Table 1 to answer this question.

N/A - The CTA mandate is not applicable/related to the proponent's proposal to construct the Project.

7. If applicable, specify any additional information the proponent could provide in the Detailed Project Description or in its response to the Summary of Issues that:

- would make it possible to verify whether certain minor issues could be addressed and managed by clear measures, existing guidelines, other regulatory processes or other existing tools;
- help the Agency to provide an opinion if an impact assessment is required, or
- would support the tailoring of the Impact Statement Guidelines if the Agency is of the opinion that an impact assessment is required.

These clarifications and additional information will be included as specific questions/issues in the Summary of Issues provided to the proponent.

Please use Table 2 to answer this question.

N/A - CTA authority is not required in order for the proponent to construct the proposed Project.

Table 1: Key issues to inform the impact assessment process

The Agency asks that federal authorities guide expert advice on the Agency's approach to project specific tailoring, if the Agency is in the opinion that an impact assessment is required. This approach aims to focus the assessment on the Project's key issues, with an emphasis on the prevention of adverse environmental effects in areas of federal jurisdiction. In determining key issues, federal authorities should be mindful of the Project's context (size, scope, location), Indigenous knowledge and perspectives, and public concerns.

Potential effects that are considered minor, or that can be mitigated through clear measures, existing guidance or other regulatory processes, may be subject to simplified information requests or be disregarded. Advice from federal authorities on key issues and solutions - and on the scope and detail of the studies and information requested - will enable the Agency to focus the analysis on those issues that are important for the impact assessment process.

Comment ID	Relevant section of the initial project description	Valued Component or Factor to Consider	Description of key issue (context and rationale)	Advice	Plain-language summary for inclusion in Summary of Issues
<p><i>Please present comments by organization and comment number</i> e.g.: IAAC-01</p>	<p><i>If the comment relates to a specific section of the initial project description, please provide the reference.</i></p>	<p><i>Identify valued component(s) or factor to consider—within the mandate of your department or agency—to which the potential effect or issue applies.</i></p>	<p><i>Please provide a brief description of the issue and rationale for being a key issue.</i></p> <p><i>Include, where relevant:</i></p> <ul style="list-style-type: none"> • <i>the sequence of potential effects;</i> • <i>the relevant context that specifies why this is a key issue;</i> • <i>key uncertainties that should be addressed in the impact assessment;</i> • <i>Indigenous or public concerns or perspective;</i> • <i>scientific data or traditional knowledge, including from previous projects, that justifies the inclusion of the key issue in the project assessment.</i> 	<p><i>If applicable, please provide brief solutions/advice to address the issue or potential effect, including:</i></p> <ul style="list-style-type: none"> • <i>studies or information relevant to describing and characterizing the potential effect, including any guidance for data collection or analysis or existing data sources to inform the assessment;</i> • <i>any powers your department or agency has that may mitigate, manage or set conditions related to the issue;</i> • <i>advice or policies to frame and mitigate the potential effect;</i> • <i>standardized mitigation or monitoring measures that could manage potential effects, including follow-up on monitoring activities;</i> • <i>Commitments the proponent could make to respond to the issue.</i> 	<p><i>For issues to be included in the Summary of Issues, provide a concise, plain language synopsis of the key issue and any questions or directions for the proponent, if applicable.</i></p>

Please insert additional lines if necessary.

Table 2. Details or additional information the proponent could include in the Detailed Project Description or in the response to Summary of Issues

Comment ID	Relevant section of the Initial Project Description	Description of the Issue, Concern or Uncertainty	Clarifications or additional information	Plain-language summary for inclusion in Summary of Issues
<p><i>Please identify comments by organization and comment number.</i></p> <p><i>e.g. AEIC-01</i></p>	<p><i>If the comment is related to a specific section of the Initial Project Description, please provide a reference.</i></p> <p><i>You may also choose to copy the relevant text here.</i></p>	<p><i>Provide a description of the issue, concern or uncertainty that the proponent could include in its Detailed Project Description, which could be framed and managed by clear measures, existing guidelines, regulatory processes or other existing tools, and thus be the subject of a simplified information request in the guidelines, or simply be disregarded.</i></p>	<p><i>Specify what additional information the proponent could provide in the Detailed Project Description to address the issue, concern or uncertainty, for example:</i></p> <ul style="list-style-type: none"> <i>• Clarifications to elements of Project Description (e.g. components, activities, locations or alternatives);</i> <i>• Proposals on Project design changes that could avoid effects;</i> <i>• Evidence that could demonstrate that the effects will be negligible;</i> <i>• Evidence that standard mitigation measures will reduce or eliminate potential effects;</i> <i>• Commitments the proponent could make to respond to the question/issue, including the implementation of federal operational policies or guidance documents.</i> 	<p><i>For issues to be included in the Summary of Issues, provide a concise, plain-language synopsis of the issue and any questions or instructions for the proponent, if applicable.</i></p>

Please insert additional lines if necessary.
