Subject: Deep Geological Repository (DGR) for Canada's Used Nuclear Fuel Project, Ref # 8477

I insist that you have a full impact assessment and public hearing that includes the transportation of nuclear waste.

You owe this diligence to the people of Canada, the people along the transportation route, and especially the people of northwestern Ontario.

Transporting nuclear waste is a threat to our national security. It is also a threat to our environment.

Nobody wants the stuff. So bury it in Doug Ford's backyard. I bet he'll change his mind.

Yours Truly,
CJC
