**Subject:** Transportation concerns

Hi there,

I live and work in Thunder Bay and spend much of my summer camping and hiking along the north shore of Lake Superior.

I'm very concerned about the lack of transparency and planning about nuclear waste transportation and safety. We already know that stretches of the route are dangerous and I'm concerned about ecosystems and living beings that would be impacted due to a crash, or an issue with the transport vehicle.

I am calling for a more thorough review and community input of transportation plans.

Thank you.
