Subject: Major Projects - Deep Geological Repository for Canada's Nuclear Fuel Project - Grand Council Treaty #3

Hello,

I'm emailing on behalf of Grand Council Treaty #3 in relation to the recent announcement of the Nuclear Waste Management's (NWMO) the Deep Geological Repository (DGR) project being listed for consideration as national interest project. Please find attached a letter from Grand Council Treaty #3 addressing our existing concerns around the DGR project and a request for information in regards to the Major Projects Office and its processes.

Can you please confirm reception of this email and the attached letter and information request.

I'm looking forward to discussing further. If you have any questions please don't hesitate to ask.

Thank you,

Chris
