Re: Response to designation request on underground and Vista Coal Mine Phase 2

Dear Minister Guilbeault,

KLCN has been in consultation with Coalspur Mines (Operations) Limited regarding the Phase 2 application and the current operation. We will continue to work with them to work through concerns of impacts to its Treaty and Aboriginal rights. We have toured the current operation of the mine site and have received benefits from the mine. Coalspur has sponsored since 2019 our yearly Summer Cultural Camp and our Christmas Hamper Drive.

We will be consulting with Coalspur Mines (Operations) Limited on the mine's operation and do not see a benefit from a designation of the Phase 2 application. We ask the minister to not designation the mine.

Sincerely,

<Original signed by>

Okim'aw Cliff Calliou

KLCN Chief
