RE: CIAR #89790, Federal Authority Advice Request for the Greenlight Electricity Centre Project

To the Impact Assessment Agency of Canada (IAAC),

Environment and Climate Change Canada (ECCC) have completed a review of the Initial Project Description for the Greenlight Electricity Centre Project proposed by Greenlight Electricity Centre Limited Partnership. We are providing comments for IAAC's consideration.

Our expert advice is based on ECCC's mandate in the context of subsection 36(3) of the *Fisheries Act*, the *Species at Risk Act*, the *Migratory Birds Convention Act, 1994*, the *Canadian Environmental Protection Act, 1999*, and their relevant regulations.

Please contact Leah Dirk, Environmental Assessment Officer at (306) 514-2363 or Leah.Dirk@ec.gc.ca and the and the ECCC Prairie and Northern Region Environmental Assessment South Generic Inbox at EASouthPNR@ec.gc.ca if you have any questions or concerns.

Sincerely,
