VALLEY ROCK WORKS INCORPORATED

## COMPANY OVERVIEW

Valley Rock Works Incorporated (VRW) is a leading provider of specialized drilling and blasting services, with a strong emphasis on safety, precision, and environmental stewardship. Our highly skilled team leverages state-of-the-art technology and best practices to ensure efficient, controlled, and compliant blasting operations. VRW prioritizes the well-being of employees, clients, and communities, consistently exceeding industry safety standards while optimizing project outcomes.

## MISSION

Our mission is to be the premier blasting company, offering exceptional services that prioritize safety, quality, and customer satisfaction. We are dedicated to delivering efficient and precise blasting solutions for construction, mining, and excavation projects while promoting environmental sustainability through responsible practices.

## CORE VALUES

Valley Rock Works is guided by core values that shape every aspect of our operations:

- Integrity:** Building trust through transparent and honest interactions with our clients, partners, and team members.
- Quality:** Delivering exceptional work that meets the highest standards of precision and safety in every project.
- Safety:** Prioritizing the health and well-being of our employees, clients, and the public through rigorous safety protocols and continuous training.
- Teamwork:** Fostering collaboration and open communication to achieve project goals efficiently and effectively.
- Community Commitment:** Respecting the communities we work in and striving to contribute positively to the environment and local development.

VALLEY ROCK WORKS INCORPORATED

## OUR SERVICES

Valley Rock Works offers a comprehensive suite of specialized drilling and blasting solutions for construction, mining, and infrastructure projects, including:

### **Precision Rock Drilling & Blasting:**

Controlled blasting for residential, commercial, and industrial developments, ensuring safety and minimal disruption in urban environments. VRW holds advanced Urban Blasting Tickets, enabling us to operate safely and efficiently within city limits.

### **Highway and Roadway Blasting:**

Supporting major infrastructure projects with efficient rock excavation and slope stabilization, including work on highways, roads, and municipal projects.

### **Mining and Quarry Operations:**

Providing expert drilling and blasting services for resource extraction, including mine site development, quarry benching, and aggregate production. VRW specializes in quarry development from inception through to full-scale operations, maximizing material efficiency and safety.

### **Trenching for Pipeline Ditching:**

Safe and precise ditching for pipelines, utilities, and oilfield developments, with a focus on maintaining structural integrity and safety around existing infrastructure.

### **Quarry Bench Design & Aggregate Production:**

Implementing optimized designs to enhance safety and efficiency, producing high-quality aggregates for construction and industrial applications.

### **Logging Road Development:**

Offering tailored blasting services for forestry operations, ensuring safe access routes and effective rock management.

### **Emergency Response Blasting:**

Providing rapid mobilization for urgent rock removal needs, supporting natural disaster response, and critical infrastructure repairs.

VALLEY ROCK WORKS INCORPORATED

## COMMITMENT TO SAFETY

---

Safety is a core value at VRW. We uphold the highest safety standards through rigorous training, advanced monitoring, and protective measures. Our staff hold the highest regulatory certifications, including Urban Blasting Tickets and Mine Blasting Certifications. Regular training programs ensure our team remains at the forefront of safety practices. Our on-site practices include vibration reduction, dust control, and strict compliance with all relevant regulations to minimize environmental impact.

## LEADERSHIP

---

Sean Salway leads Valley Rock Works' drilling and blasting operations with unparalleled expertise and a dedication to safety. With years of experience across urban blasting, mine blasting, and quarry development, Sean ensures every project is executed with precision and safety at the forefront.

His leadership and in-depth knowledge contribute significantly to maintaining VRW's reputation as a trusted partner in civil construction, mining, and infrastructure projects. Sean is committed to fostering a culture of safety and excellence, guiding his team through complex projects while adhering to industry best practices and regulations. Under his management, VRW continues to deliver reliable, safe, and effective blasting services that meet and exceed client expectations.
